

Lisle's 2012 Eyes to the Skies Festival
Food and Fire Safety
June 29th – July 1st, 2012

All food vendors need to follow the fire and safety guidelines below.

- All propane tanks must be secure.
- Fire extinguishers must be located in all booths utilizing heat producing appliances (current certification for Illinois).
- K type extinguishers must be located in all booths cooking with grease (current certification for Illinois).
- Hood Suppression Systems must be located in all booths utilizing grease (current Illinois certification).
- Flame Certificates must be available for all tents.
- Approved electrical cords must be used. Any with fraying or splices are not permitted.
- No tripping hazards are permitted in any food vendor tents.
